

New Mexico State University
Administration and Finance
A&F Weekly Report – Week Ending 10/16/2015

- **Auxiliary Administration:** The NMSU INSIDER free mobile app has added a search feature in the What's Hot section that simultaneously searches all of the NMSU Web site, as well as affiliated sites, such as nmstatesports.com, nmsugolf.com, and nmsutheatre.com. To download the app go to <http://aux.nmsu.edu/>

- **Campus Security and Beautification:** Grounds have contracted Wasser and Wasser to perform campus wide tree pruning. They are removing the dead limbs from trees and also thinning out the canopies which will allow night time security light into the areas reducing dark spots. In addition to improving the security lighting, this activity allows more sunlight into an area promoting turf and plant growth. They will be performing this maintenance activity every Friday for the next 13 weeks. Notices will be sent to the building monitors and campus identifying the work areas.

- **Sodexo Dining Services:**
 - Real Food, Real People, held each Wednesday for lunch, featured Paco, one of Sodexo's exceptional cooks. Paco, a native to Leon, Guanajuato, Mexico, has been a professional chef for ten years. Taos Restaurant featured some of his favorite dishes, asado de res estilo minero (beef in passilla chile), arroz Mexicano with vegetables and frijoles rancho. Find menus and events at <http://dining.nmsu.edu/>
 - Sodexo provided a wonderful meal for the annual Employee Picnic. Lasagna, summer vegetables, and those great logo cookies were enjoyed by approximate 2,200 faculty and staff members.
- **Barnes & Noble Bookstore:** Barnes and Noble at NMSU hosted the Graduation Fair on Tuesday and Wednesday in co-sponsorship with the Office of Alumni Relations and Student Affairs and Enrollment Management. The event allows December 2015 graduating students to register for commencement with the Alumni Association, purchase commencement regalia, and plan for commencement with other options like selecting their Official NMSU Ring. Increased participation was noted from last year's event.

- **Celebrating the Ribbon Cutting for the Therapeutic Riding Covered Area**

Covered Area: On Friday, October 9, 2015, FS Project Manager Heidi Hubble was acknowledged for her managing the Therapeutic Riding Covered Area project at the ribbon cutting. This five month project costs \$200,000, with \$150,000 coming from capital outlay funding with support from N.M. Senator Mary Kay Papen, and an additional \$50,000 from private donors and College of Agricultural,
