

New Mexico State University Administration and Finance A&F Weekly Report – Week Ending 4/8/2016

McFie Circle

The McFie Phase I project will provide a lovely new pedestrian and bikeway path connecting International and Frenger Malls. Due to the construction projects of Domenici IPP and the Hardman and Jacobs Undergraduate Learning Center, this pathway has been closed for about four years! So the opening, in just a few weeks, will provide easier access to these facilities as well as Milton Hall, Frenger Food Court, and Zuhl Library. The landscaping includes the addition of benches and tables for all to enjoy. Thank you all for your patience as we continue to make improvements to our campus!

Introducing Bite

Bite is a free new app by Sodexo, NMSU's campus dining partner. With this powerful tool, you can check the hours for all Sodexo restaurants at NMSU, obtain the full menu with nutritional information at Taos Restaurant, save favorite foods, and even link to FitBit. To download, search "Bite by Sodexo" in the App Store or Google Play and enter menu code P2AJ9.

LEDs shine bright on Technology Day

Technology Day, which was sponsored by ICT's Student Technology group, was held in the Aggie Lounge on April 5th. The event was a smashing success, featuring over 20 tables that showcased various departments and the technology and innovational services they use or provide at NMSU. On hand were 3D printers, 3D pens, 3D educational learning programs, telecommunications museum, and a friendly candy-delivering robot. To aid in the promotion of this event, the NMSU Basketball team was on hand to challenge their student peers to games of tech-pong.

Bodacious Burgers

On April 5th, Bodacious Burgers were served in Taos as one of Sodexo's Swipe + engagement events, featuring blue ribbon Angus beef, enticing toppers, and served with the guest's choice of crispy waffle fries or beer battered onion rings. Swipe + events are special meals with premium options.
