Electrical Shop Utility Quick Response

The Facilities and Services Electric Shop responded to a call at Myrna's Children's Village that electric service was lost at building. Upon investigation, the electricians discovered a damaged feeder cable. The crew removed the damaged section of cable and restored power to the building in less than 30 minutes.

Campus Safety

The Grounds Shop placed four galvanized containers with umbrellas for pedestrians use while walking through the nesting hawk area, between Rentfrow Gymnasium and Regents Row. An open umbrella provides a barrier which deters potential attacks by nesting hawks. Pedestrians may borrow an umbrella prior to entering the nesting area and then return it to a similar container upon leaving. This solution was a collaborative effort between Grounds, the Sustainability Committee, and Drs. David Boje and Carol Campbell.
