

Project Entry Way

The Facilities Maintenance shop is completing the hallway and stairwell painting in the Speech Building. They have repainted the restroom and hallway walls, door frames and replaced damaged fixtures. The stairwell on the west end of the building is being prepared for Art in Public Places exhibit. One wall has been painted blue to accent the art work that will be installed at a later date.

Corbett Center Stairwell Safety

Structural Maintenance repaired the east exterior stairs of Corbett Center this week. They inspected all of the stair treads and secured the loose treads to the concrete stairs. Loose stair treads were a safety hazard and this repair provides a safe walking surface for the students and community members entering Corbett Center.
