FOOTNOTES:

IMPORTANT: Deductible amounts and coinsurance percentages are applied to BCBSNM's covered charges, which may be less than the provider's billed charges. Preferred providers will not charge you the difference between the covered charge and the billed charge for covered services; nonpreferred providers may.

See NMSU Prescription Drug Benefit Summary on next page.

¹ All benefit payments are based on the covered charge as determined by BCBSNM. The deductible must be met before benefit payments are made for most services, except services with a copayment, hearing aids, and certain preventive services. Deductible amounts do not cross-apply in the Preferred Provider and Nonpreferred Provider benefit levels.

² After a member reaches the applicable out-of-pocket limit, BCBSNM pays 100 percent of most of that member's covered Preferred or Nonpreferred Provider charges, whichever is applicable. Out-of-pocket amounts do not cross-apply in the Preferred Provider and Nonpreferred Provider benefit levels.

³ Initial treatment of a medical emergency is paid at Preferred Provider level. Follow-up treatment and treatment that is not for an emergency is paid at Nonpreferred Provider level.

⁴ Certain services are not covered if preauthorization is not obtained from BCBSNM. A list of services requiring preauthorization is in Section 2.

⁵ Preauthorization is required for inpatient admissions. Some services, such as transplants and physical rehabilitation, require additional preauthorization. If you do not receive preauthorization for these individually-identified procedures and services, benefits for any related admissions will be denied. See a Member's Benefit Booklet for details.

⁶ Rental benefits for medical equipment and other items will not exceed the purchase price of a new unit.

Note: Deductible does not apply and copayments and coinsurance are not applied to out-of-pocket. Certain drugs, special medical foods, and enteral nutritional products require preauthorization or benefits will be denied. 4,7 The Generics Plus Drug List is a list of preferred drugs that are	Type of Prescription	Percentage of covered charge you pay (coinsurance), if the percentage is between the minimum and maximum copayments:	Minimum Copayment	Maximum Copayment

(BCBSNM has contracted with a separate program for administration of your prescription drug benefits.)
