NMSU is an equal opportunity employer.

Sample Ads

The least expensive ad is one that directs the reader to the NMSU website or to the hiring department for further information such as this ad on the right. You can direct that these ads be placed in a designated section of the classifieds. For example, this ad should be sent with directions to place it under "Human Resources" so that it will be grouped with similar ads. If you do not designate this, the newspaper will determine where to place it.

Longer column ads, such as the ad to the left, allow for more information. These can also be placed as display ads such as the ad on the right. Display ads are commonly used in the *Chronicle for Higher Education* and to provide more visibility and a better means of presenting large amounts of text. Such ads will also frequently include information about the university, community or department.
